1. Policy Statement and a Statement about Commitment

The River School is committed to the safety and wellbeing of students enrolled at the school in accordance with the *Working with Children (Risk Management and Screening) Act 2011 (Qld) Reg.3*. The River School is dedicated to eliminating and minimising risks to child safety through this Strategy which includes and refers to various other policies and procedures to effectively ensure the safety and wellbeing of children in the school's care.

This *Child Risk Management Strategy* is evidence of The River School's commitment to taking all reasonable steps to promote the safety and wellbeing of students in their care and their protection from foreseeable harm.

2. Implementation

In practice, The River School's commitment to acting in accordance to the *Working with Children (Risk Management and Screening) Act 2000 (Qld) ("the Act")* to ensure the safety and wellbeing of students means that it will implement the measures outlined below in points 1 - 8.

2.1. CODE OF CONDUCT

At The River School we expect our employees to conduct themselves as follows: School employees are expected to always behave in ways that promote the safety, welfare and wellbeing of children and young people. They must actively seek to prevent harm to children and young people, and to support those who have been harmed.

Specific responsibilities include:

- Employees should avoid situations where they are alone in an enclosed space with a student.
- When physical contact with a student is a necessary part of the teaching/learning experience, employees must exercise caution to ensure that the contact is appropriate and acceptable. Employees must always advise the student of what they intend doing and seek their consent.
- Employees must not develop a relationship with any student that is, or that can be interpreted as having a personal rather than a professional interest in a student.
- Employees must not have a romantic or sexual relationship with a student.

This commitment is evidence of The River School fulfilment of the requirements of the Regulations S3(1)(b).

2.2. RECRUITMENT, SELECTION, TRAINING AND MANAGEMENT PROCEDURES

The River School is committed to recruiting, selecting, training and managing employees in such a way that limits risks to children. In particular, The River School will:

- Ensure that its recruitment and selection procedures act to reduce the risk of harm to children from employees via:
 - Accurate position descriptions, including whether the successful applicant must be a teacher registered with the Queensland College of Teachers

- (who has been subject to relevant police and other safety checks), whether a Blue Card is necessary for the successful applicant, the responsibilities and supervision associated with the position, the nature and environment of the service provided to children, and the experience and qualifications required by the successful applicant
- Advertising the position with a clear statement about the school's commitment to safe and supportive work practices and identifying that candidates will be subject to a teacher registration check or Blue Card screening, a police check, referee checks, identification verification and the requirement to disclose any information relevant to the candidates' eligibility to engage in activities including children.
 - A selection process that includes assessing the application via an interview process and referee and other checks (as identified above) based on the accurate position description.
 - A probationary period of employment, which allows the school to further assess the suitability of the new employee and to act as a check on the selection process.
 - Ensure that its training and management procedures act to reduce the risk of harm to children from employees via:
 - Management processes that are consistent, fair and supportive.
 - Performance management processes to help employees to improve their performance in a positive manner.
 - Supportive processes for staff when they are experiencing challenges, such as mentoring, mediation, conflict resolution, coaching, additional training, and external support and counselling services.
 - An induction program which thoroughly addresses the school's policies and procedures, particularly its expectations regarding child risk management and to assist employees to understand their role in providing a safe and supportive environment for children.
 - Training new and existing staff on an ongoing basis to enhance skills and knowledge and to reduce exposure to risks, as follows:
 - The school's policies and procedures
 - Identifying, assessing and minimising risks to children
 - Handling a disclosure or suspicion of harm to a child.
 - Keeping a record of the training provided to employees.
 - Exit interviews to assist the school to identify broader issues of concern that may impact on the safety and wellbeing of children at the school.

This commitment is evidence of The River School's fulfilment of the requirements of the Regulations S3(1)(c).

2.3. HANDLING DISCLOSURES OR SUSPICIONS OF HARM

Any of the types of concerns or reports below should be reported and managed under The River School's *Child Protection Policy*, as follows:

- All staff with concerns about sexual abuse or likely sexual abuse
- Teachers with concerns of sexual or physical abuse
- All staff who have received a report of inappropriate behaviour by another staff member.

In accordance with the *Child Protection Act 1999*, if a staff member, teaching or non-teaching, is aware or reasonably suspects harm has been caused to a student under 18 years and the harm has not been reported under the *Child Protection Policy*, the staff member must report the harm to the school's Principal. The types of harm reported may include emotional or psychological abuse or neglect or sexual exploitation.

If the Principal is aware or reasonably suspects the harm has been caused and that the student is in need of protection, the Principal must report the harm or suspected harm to the Chief Executive of the Department of Communities, Child Safety and Disability Services (or other department administering the *Child Protection Act 1999*). In assessing whether a student is in need of protection, the Principal will consider the "Summary of Reporting Harm" (*Appendix 1*) and Independent Schools Queensland's Child Protection Decision Support Trees for information on the process for reporting all types of harm, including sexual abuse.

To report any type of harm, all staff members should use the Report of Suspected Harm or Sexual Abuse Form in *Appendix 2* of this Strategy.
